GeForce Experience & GeForce Now Shortcuts for Windows

No.	Action	Windows Shortcuts	Section
1	Share overlay UI	Alt + Z	Most used GeForce Experience Shortcuts
2	Take a screenshot and save it to the gallery	Alt + F1	Most used GeForce Experience Shortcuts
3	Toggle the FPS counter on or off	Alt + F12	Most used GeForce Experience Shortcuts
4	Save the last 5 minutes recorded	Alt + F10	Most used GeForce Experience Shortcuts
5	Toggle manual recording on or off and save	Alt + F9	Most used GeForce Experience Shortcuts
6	Entire desktop screenshot	Ctrl + Win + Alt + F1	Most used GeForce Experience Shortcuts
7	Toggle broadcasting on or off	Alt + F8	Broadcasting Shortcuts
8	Pause or resume broadcasting	Alt + F7	Broadcasting Shortcuts
9	Toggle the camera on or off while broadcasting	Alt + F6	Broadcasting Shortcuts
10	Toggle custom overlay on or off while broadcasting	Alt + F5	Broadcasting Shortcuts
11	Toggle in-game overlay	Ctrl + G	Most used GeForce Now Shortcuts
12	Save a screenshot	Ctrl + 1	Most used GeForce Now Shortcuts
13	Toggle instant replay on or off	Ctrl + Shift + 0	Most used GeForce Now Shortcuts
14	Save the last recorded minutes or seconds	Ctrl + 0	Most used GeForce Now Shortcuts
15	Start or stop the recording	Ctrl + 9	Most used GeForce Now Shortcuts
16	Toggle the microphone	Ctrl + M	Most used GeForce Now Shortcuts
17	Advanced gaming stats	Ctrl + Alt + F6	Most used GeForce Now Shortcuts
18	Average frame rate based on the frame-to-frame present time	###fps	First line Code
19	Average frame-to-frame receive time from the server	ft:###ms	First line Code
20	Average frame-to-frame receive time jitter (navigate=early, positive=late)	fj###ms	First line Code
21	Average streaming rate	r:##mb	First line Code
22	Bandwidth utilization as a percentage	bwu:##%	First line Code
23	Frame number	########	Second line Code
24	Round trip delay from client to server	rtd: ###ms	Second line Code
25	Packet loss - May be more than one packet per video frame	pl: ###	Second line Code
26	Begin time – the latency between receipt of packet to start of processing	b: ####ms	Third line Code
27	Decode time – the latency from begin to decode complete	d: ####ms	Third line Code
28	Render time – the latency from decode complete to render complete	r: ####ms	Third line Code
29	Present time – the latency from render complete to post-swap-buffers	p:####ms	Third line Code
30	Total time – add up all of the above for total latency through the client	t: ####ms	Third line Code
31	Window resolution	wr: ###x###	Fourth line Code
32	Streaming resolution	sr: ###x###	Fourth line Code
33	Q score	sq: ###	Fourth line Code
34	Number of input events processed	e: ####	Fourth line Code
35	type of GPU used on the server for this session	gpu: #######	Fifth line code
36	alt: using direct input events from system, sdl: using input events from SDL library	input: alt|sdl	Fifth line code
